"I place economy among the first and most important virtues, and public debt as the greatest of dangers. To preserve our independence, we must not let our rulers load us with perpetual debt. If we can prevent the Government from wasting the labors of the people under the pretense of caring for them, we will be happy."

Thomas Jefferson

The objectives of TAX PAC are to foster, encourage and promote a nonpartisan interest in and study of the business and fiscal activities of local, county, state and federal government agencies as such activities may affect taxpayers, and, in cooperation with such agencies, to strive to assist in procuring the greatest possible efficiency at the lowest practical cost. Following this analysis, we make suggestions and inform the public to enable them to make the correct decision at the polls.

We advocate the position that taxing agency spending has far exceeded, in many instances, the public's ability to pay. TAX PAC, Inc., therefore, offers the taxpayer an organized and unified voice toward the fiscal responsibility of government.
